## Drug Formulary

### April 2021

## Prescription Drug Coverage

The listing of a drug in the Formulary does not guarantee coverage if your contract does not cover that category of drugs (e.g., oral contraceptives, infertility agents). Refer to the Benefits and Coverage Clarification section (page 13) in the *Handbook* to determine specific coverage.

**Approved Medications** — Only FDA-approved medications are eligible for coverage.

**Non-Covered Medications** — These drugs are determined by the terms of the member's group health plan. The following are examples of, but not limited to, drug categories that plans exclude from coverage: drugs used for cosmetic purposes, weight control, promotion of fertility, and sexual dysfunction.

**Preferred Generic Medications (Non-Specialty; Tier 1)** — The Cleveland Clinic Health Benefit Program supports and encourages the use of FDA-approved generic drugs that are both chemically and therapeutically equivalent to manufacturers' brand name products. Generically equivalent products are safe and effective treatments that offer savings as alternatives to brand name products. This Formulary lists both a generic and a brand name for the purpose of drug recognition.

**Preferred Brands (Non-Specialty; Tier 2)** — An FDA-approved drug of proven therapeutic efficacy and safety and approved by the P&T Committee for inclusion in the Formulary.

This Formulary lists both a generic and a brand name for the purpose of drug recognition.

**Non-Preferred /Non-Formulary Brands and Generics (Tier 3)** — Any FDA-approved medication which has been reviewed by the P&T Committee and not added to the Formulary or is new and has not yet been reviewed by the P&T Committee is considered a Non-Preferred/Non-Formulary drug. A higher co-insurance is charged for Non-Preferred/Non-Formulary medications.

**Specialty Brand/Generic Drugs (Tier 4)** — An FDA-approved drug of proven therapeutic efficacy and safety and approved by the P&T Committee for inclusion in the Formulary as a specialty medication due to its complex nature, administration, handling, and/or treatment of a complex disease state.

**Compounded Prescriptions** — A customized medication prepared by a pharmacist according to a doctor's specifications. Compounded prescriptions are considered Non-Preferred and have a charge of 45% at any Cleveland Clinic Pharmacy or 50% at all other locations. Prior authorization is required for coverage of compounded medications with a total gross cost of \$100 or more.

**Investigational/Experimental Drug Use** — A medication pending FDA approval or a FDA-approved medication not generally recognized by the medical community as effective or appropriate for a particular diagnosis. Charges for experimental or investigational drugs are not a covered benefit.

## Important Points About the *HBP Prescription Drug Formulary*

- The *HBP Prescription Drug Formulary* lists medications that are included in Tier 1, Tier 2 and Tier 4 of the HBP Prescription Drug Benefit (Tier 3 are Non-Preferred/Non-Formulary brand and generic drugs). All of the medications listed in this *HBP Prescription Drug Formulary* are considered formulary medications. This *HBP Prescription Drug Formulary* is designed to assist members and physicians to enhance cost savings by using Preferred Generic Medications (Non-Specialty; Tier 1), Preferred Brands (Non-Specialty; Tier 2) and Specialty Brand/Generic Drugs (Tier 4), thereby making all drugs in these Tiers the preferred drug(s) of choice. **This *HBP Prescription Drug Formulary* is designed to assist members and physicians to enhance cost savings by using Preferred Generics (Non-Specialty; Tier 1), Preferred Brands (Non-Specialty; Tier 2) and Specialty Brand/Generic Drugs (Tier 4), thereby making all drugs in these Tiers the preferred drug(s) of choice.**
- Coverage of certain Formulary medications may also be subject to restrictions established by the Pharmacy and Therapeutics (P&T) Committee.
- Brand names are listed in the *HBP Prescription Drug Formulary* only as a reference to help you identify the Preferred drug and do not indicate coverage of a particular brand. Brand names are capitalized (e.g., Amoxil) and generic names are in lower case (e.g., amoxicillin).
- The inclusion of a drug on this list does not mean that all strengths or dosage forms for a given drug are covered under your prescription drug benefit. Medication strengths or dosage forms that are excluded from the formulary can be found in the Non-Covered Medications section starting on page 16.
- Designated symbols/letters follow certain drugs listed in the *HBP Prescription Drug Formulary* and indicate criteria related to the drugs as follows: (\*) indicates availability of a generic equivalent; (\*\*) indicates availability of a generic equivalent but the brand product is still covered as a “Preferred Brands (Non-Specialty; Tier 2); (PA) indicates that prior authorization is required for use (physician must submit a Prior Authorization, Formulary Exception and Appeal Form); (SP) indicates a specialty brand or generic drug (a higher co-insurance may be charged and medications only available through Cleveland Clinic Pharmacies, Cleveland Clinic Specialty Pharmacy, or the CVS/caremark Specialty Drug Program); (QL) indicates the drug has a quantity limit. (ST) indicates the drug is part of the Step Therapy Program.

9500 Euclid Ave., Cleveland, OH 44195

Cleveland Clinic is a nonprofit, multispecialty academic medical center integrating outpatient and hospital care with research and education for better patient outcomes and experience. More than 4,500 staff physicians and researchers provide services through 20 patient-centered institutes. Cleveland Clinic is a 6,026-bed healthcare system with a main campus in Cleveland, 18 hospitals and over 220 outpatient locations. The health system includes five hospitals in Southeast Florida with more than 1,000 beds, a medical center for brain health in Las Vegas, a sports and executive health center in Toronto and a 364-bed hospital in Abu Dhabi. Cleveland Clinic London, a 184-bed hospital, will open in 2022. Cleveland Clinic is currently ranked as one of the nation's top hospitals by *U.S. News & World Report*.
